

# 25% Aluminum Sulfate Solution

## Presentation:

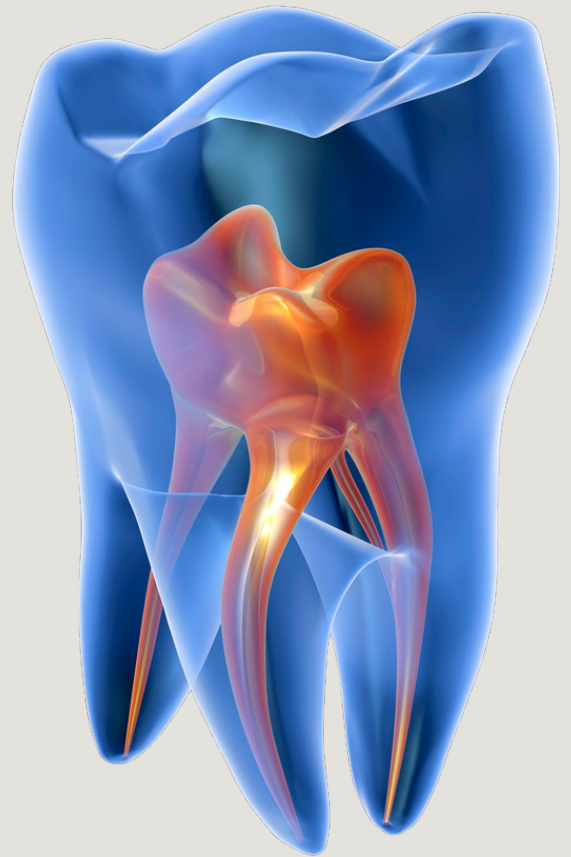

75300-10: 10 mL  
75300-20: 20 mL  
75300-50: 50 mL  
75300-100: 100 mL

## Description:

- Excellent retraction, hemostatic control and tissue rigidity
- 25% Aluminum Sulfate Liquid
- Special lubricating vehicle prevents adhesion between retraction cords or impression materials and the gingival tissue
- Higher pH, less acidic aluminum chloride solutions
- No adverse reaction to impression material
